MATERIALS

Matt plexiglas
Giclée print Ultrachrome mounted on dibond with Mat plexiglas. This finish is designed for spaces with high ambient light or large windows. The matte surface diffuses light to eliminate harsh reflections, providing a sophisticated, soft-touch finish that allows the image to be viewed clearly from any angle without a "mirror effect."

Framed with Museumglass
Fine Art print mounted on dibond and framed with museum glass in a wooden frame. The choice for the traditional collector. This combines a structural Dibond mount with the timeless elegance of a wooden frame. By using Museum Glass, we achieve 99% UV protection and a nearly invisible surface, offering the tactile warmth of a classic frame without the green tint or reflections of standard glass.

Diasec Anti-Reflex
Giclée print Ultrachrome mounted on Dibond with Diasec Anti-Reflex. An exhibition-grade finish that utilises the patented Diasec® chemical bonding process. This creates a permanent, airless seal between the print and a specialised anti-reflective acrylic. It provides the structural "monolith" look of a contemporary mount while ensuring that even under heavy gallery spotlights, the focus remains entirely on the artwork's detail.

Diasec True-life
Giclée print Ultrachrome mounted on dibond with Diasec True-life. The absolute pinnacle of art production. This tier uses TruLife® acrylic, an optic-grade material similar to high-end camera lenses. It provides a stunning "liquid" depth and 3D-like colour vibrancy, while simultaneously being anti-reflective, scratch-resistant, and anti-static.
